# A Family Book Directory of Knox - Hamlet - North Judson and Rural Area Issued for Late 1958 and 1959

Published by Advance-News Press, Nappanee, Ind., Phone 27

All directories are out of date the day they are issued. People die, babies are born, families move to town and leave and marriages are made and unmade between the time the last type is set and the directory comes off the press, and is bound and distributed.

The publishers assume no responsibility for the accuracy of the contents, errors or omissions, and make no such guarantee. The contents have been checked carefully with information as it has been given to us. Proofs of this directory were posted in the windows of Stark County Democrat (and the Republican) with notice in these newspapers to the people to check names as they appear in this directory for omissions, accuracy and corrections. So all had a chance to make sure their name and family would be included and to check for errors. The publishers are grateful to Mrs. Ware Edgar who did this service for the public and publishers. This is the first directory for this area and has taken months to compile and issue.
