Read These Instructions Carefully

IN CASE OF FIRE, call Central in usual way, GIVE NAME, STREET and DIRECTION SLOWLY AND PLAINLY. DO NOT LEAVE THE TELEPHONE UNTIL YOU ARE SURE CENTRAL UNDERSTOOD YOU CORRECTLY.

Locations of fire will not be given except to volunteer firemen. If you are interested, Central is instructed to call you. Operators are busy calling pumping plant and firemen.

It is necessary to call by number to expedite service. It is unfair and unreasonable to expect operators to neglect others while looking up a number for you in the directory.

Each subscriber's telephone is designated by a number which is placed to the right of the name in the directory. This prefix and number are not part of the contract with the Company, and may be changed by the Company when necessary.

A humming tone in receiver is an automatic signal that the line is busy and that some one is trying to ring the party you have called for. A subscriber should bear in mind that it requires no more exertion on the part of an operator and is much more agreeable to make the connection at once than to place you on the busy test.

Do not call operators on personal matters while on duty. Call for Chief Operator. She will have operator call you later.

A reasonable person waits their turn patiently at a grocery, theater or meat market during busy hours. Please remember we have busy hours. An operator gets a great number of calls within a second of time.

Do not use or stand near a telephone during an electrical storm. To do so is at your risk and not that of the Company.

A telephone is leased for the exclusive use of a patron, his employees or family. Use by non-subscribers is an imposition, not countenanced by the Company. Please so inform users. Other Companies are charging the patron 5c per call for non-subscriber use.

This Directory is the property of the Starke County Telephone Corp., and is issued for the convenience of and loaned only to its subscribers. Every effort is made in its preparation to have listing complete and accurate. The company assumes no liability because of errors or omissions in classification and printing of subscriber names, numbers and addresses. The acceptance of the loan of this Directory constitutes a waiver.

Should the loaned Directory be destroyed, lost or stolen, the subscriber is expected to pay 50 cents for another copy. The price of this directory to non-subscribers is one dollar.

DISCOUNTS can not be allowed on payments made after due date. Accounts must be paid in full to secure the discount.

INSTRUCTIONS TO PATRONS

Subscribers should not fail to use Directory. It is necessary to good service. Don't depend on memory. Many of the numbers have been changed.

For names not listed call INFORMATION.

Talk directly into transmitter with mouth not to exceed one-half inch away. This is absolutely necessary to good service.

Spell out number you want, one figure at a time. For number 839 say "eight-three-nine."

Do not hang up receiver if asked to call some one to the telephone. The connection will be broken.

Receiver must not be off the hook for any purpose whatever, except while talking or calling party to telephone.

Do not hold line over five minutes at a time, if possible to avoid. You miss many calls by long conversations.

Call Chief Operator to report unsatisfactory handling of your calls.

If your telephone is not working satisfactorily, report to TROUBLE CLERK. If repairs are not made within a reasonable time, call the Manager. We appreciate your co-operation.

CHILDREN MUST NOT BE PERMITTED TO PLAY WITH TELEPHONE. INFRINGEMENT OF THIS RULE WILL CAUSE TOTAL DISCONNECTION FROM SWITCHBOARD.

PARTY LINE INSTRUCTIONS

Don't fail to use DIRECTORY.

If the name you want does not appear in the Directory, call INFORMATION. After you are given the number, call Central again and give her the number.

Do not answer any ring but your own.

Do not listen to the conversation of another.

Do not ring on the line without first listening to see if the line is in use. If so, hang up at once and wait.

When making a call, spell out number, one figure at a time. For instance, to call 123, say "ONE-TWO-THREE."

Business, sickness and accident calls have precedence over all others. Hang up receiver at once if asked to do so.

Surrender line at once when asked by Central. You can easily ring your neighbor.

Don't talk to a party on line over five (5) minutes at a time. Some people monopolize a line. It must stop.

The Company will pay five dollars (\$5.00) for convicting evidence of a subscriber purposely breaking in on a conversation, whistling in transmitter, representing themselves to be operator, or DOING ANYTHING TO HINDER THE SERVICE OF ANOTHER.

Regardless of past requests, people will eavesdrop. You know it ruins service and batteries. As long as this practice is persisted in don't complain of service. We have no way of knowing whether the trouble is our fault or yours.

Batteries should last one year. If you rubber on line and are charged with extra batteries, don't kick.

In talking, place the mouth squarely in transmitter. This is absolutely necessary for good service.

If telephone is not working satisfactorily, report to Trouble Clerk.

Call Chief Operator to report unsatisfactory handling of your calls.

Do not expect a collector to call. Come to the office and pay, or call office for amount of bill and mail check.

Read instructions. Satisfactory service cannot be given unless patrons do their part properly.

It is the Company's greatest desire to furnish its patrons satisfactory service.

LONG DISTANCE INFORMATION

The Company operates both Bell and Independent Long Distance lines. Points reached and rates are too numerous to list.

Call Long Distance Operator for rates.

Call Chief Operator for Long Distance information.

To place a long distance or toll call, signal operator in usual way and ask for LONG DISTANCE.

Give long distance operator your telephone number, name or number of party desired and town or city and state.

If you desire to talk to a specific individual, please give the name to long distance operator. This service is known as PERSON TO PERSON and takes a higher rate.

If you will talk to any one who may answer the telephone, say to the long distance operator when placing the call, STATION TO STATION—WILL TALK TO ANY ONE. Give the number of the distant telephone if you know it. If the distant telephone answers the call must be paid for. This service is known as STATION TO STATION and takes a cheaper rate than Person to Person.

Evening service is from 7:00 to 8:30 p. m. at a 25% reduction on the STATION TO STATION DAY RATE. (SEE STATION TO STATION SERVICE). If you call for a specific person, the call takes the day Person to Person rate.

Night service is from 8:30 p. m. to 4:30 a. m., at a 50% reduction on the STATION TO STATION DAY RATE. (SEE STATION TO STATION SERVICE). If you call for a specific person the call takes the day Person to Person rate.

Please remember toll lines must be connected up at various cities and towns to make a continuous circuit. A piece of line may be busy, forcing an operator to build up a circuit many times before reaching the city desired, causing delays.

Knox

Hannibal

San Pierre

N. Judson

If long distance charge is to be paid for at other end of the line, it must be so stated to the operator when the call is given and not after the conversation has been held. Do not ask to reverse a message after you have talked.

Messenger fee must be paid whether party is found or not. The messenger boy at the distant end is paid in your behalf. Messenger service is an accommodation to you. The Company derives no profit.

Appointment to talk long distance may be made by notifying Long Distance Operator of the time at which conversation is desired. The Company cannot guarantee connection at the exact time specified.

Toll messages over lines owned exclusively by this Company, or on lines owned by other companies, or jointly in use, the limit is three minutes.

Overtime on all lines will be charged at established rate per minute.

OPERATORS WILL NOT INTERRUPT CONVERSATION TO NOTIFY SUBSCRIBERS WHEN TIME IS UP.

Subscribers are liable for long distance service originating at their telephone. It matters not whether you knew of the service or not. This is the rule of all telephone companies and is upheld by court decisions. The telephone is placed in your charge when installed. **GENERAL INSTRUCTIONS** ask you not to permit non-subscribers to use the telephone.

No one connected with the company in any capacity is authorized to receive or transmit verbal or written messages unless it be solely as agent for the person desiring the same, and this Company assumes no responsibility for same.
